

### **Retention and Destruction of Medical Records**

I understand that Premier Surgery Center will preserve my medical records as original records for no less than ten (10) years from my most recent visit, or for minors it will be ten (10) years plus the age of the minority, after which time records will be destroyed by a reputable company contracted by Premier Surgery Center.

I understand that Premier Surgery Center is in compliance with the recommendations of their insurance carriers and the Colorado Department of Health rules and regulations.

I understand that I will only receive this notice and not receive further notification in ten (10) years when my records are marked for destruction

Thank you.
